THE VIEWS

Here are the woods and the views that our guests will be able to admire from the Fattoria La Loggia. Magic visions that show themselves from any angle and from the windows of our ancient village and that reveal to us all the beauty, mildness and elegance of our land, the Chianti, and of its uncontaminated nature.

The Chianti surrounding the Loggia is the homeland of the Italian Renaissance. Here have lived Beato Angelico, Cellini, Brunelleschi, Michelangelo, Leonardo. Nowadays these countries are still scattered with castles, abbeys, churches, ancient convents and charming ancient villages: a really unforgettable find for the guests of the Fattoria La Loggia.
